

# Circle Marker

# Paper Line Applicator

## Innovative...

ICECO now distributes the innovative Paper Line Applicator called the "CircleMarker".

The CircleMarker's convenient applicator system allows the rink operators to install the 2" paper lines to the ice surface in just seconds with **no creasing** - just perfect professional circles!

The CircleMarker comes complete with:

- a paper liner dispenser
- a radius bar system - extendable to all hockey rink circle radiuses i.e. face-off, referee and goal crease circles
- a 15.2 litre/4 gallon back pack sprayer.
- also included is an ICECO Paper Line Kit (contains four applications).

Complete assembly and instructions included.

## ICECO's New Paper Line Kits

Since 1989, hockey line paper rolls have changed - they do not fit most applicator dispensers properly. Arena staff have been adding washers or using hockey pucks as bushings to try and make it work. Eliminate this problem today by using ICECO's New Paper Line Kits with ICECO's CircleMarker!

Each ICECO Paper Line Kit completes (4) four rinks. The 2" and 12" paper line rolls are wound on 1/2" diameter plastic cores. The 2" rolls now fit easily inside the CircleMarker dispenser and onto the 7/16" pin supplied with unit.

Available in brilliant red and blue colours.
