

# ICE CLUB

## Product Information

### Innovative...

Iceco **ICE CLUB** is a new innovative ergonomically designed ice scraper for hockey rinks and curling clubs. The ergonomic style handle assists the ice maker in the painfully back breaking job of removing ice build up.

### Convenient...

Iceco **ICE CLUB** is professionally manufactured with solid steel pipe shafts painted with durable red powder coated paint. The **ICE CLUB** has two handles conveniently located on the unit's shaft with the ice maker's comfort in consideration.

### Solid...

Iceco **ICE CLUB** includes a solid harden treated edger blade that will maintain it's edge after many uses. The **ICE CLUB** is properly weighted to assist in the removing of ice, with little effort from the ice maker.

### Choose the **ICE CLUB!**

Replacement Iceco **ICE CLUB** edger blades are readily available upon request. Iceco **ICE CLUB** can be adapted to used ice resurfacer blades, but would have to be altered to fit and attach to the **ICE CLUB**.

Please feel free to contact Iceco Advanced Arena Products for additional information concerning the Iceco **ICE CLUB**.
